

International Consolidated Uranium Engages Mars Investor Relations

VANCOUVER, BC, June 10, 2021 – International Consolidated Uranium Inc. (“**CUR**” or the “**Company**”) (TSXV: CUR) is pleased to announce that it has engaged Mars Investors Relations Inc. (“**Mars**”), a full services investor relations and consulting services company focused on the junior metals and mining sector. Mars will provide a full suite of investor relations services to the Company including strategic messaging, investor targeting and outreach as well as corporate communications services including digital marketing, social media and branding.

Philip Williams, President and CEO commented “As we grow CUR, the investor relations and corporate communications function has become a key area we intend to focus on as it relates to communicating with existing shareholders and engaging with potential new investors. We are excited to work with the dynamic team at Mars who has deep expertise in the metals and mining sector and specific uranium experience.”

Under the terms of the engagement agreement (the “**Agreement**”), the Company has agreed to pay Mars a fee of \$5,000 per month for the first two months, followed by a fee of \$15,000 per month on a month-to-month basis and has granted Mars 150,000 stock options (the “**Mars Options**”) pursuant to the Company’s long-term omnibus incentive plan. Each option entitles Mars to acquire one CUR common share at an exercise price of \$2.23 per share for a period of five years. To the knowledge of the Company, Mars and/or its affiliates currently hold 55,556 common shares of the Company, however Mars may from time to time acquire or dispose of securities of the Company through the market, privately or otherwise, as circumstances or market conditions warrant. Mars is at arm’s length to CUR and has no other relationship with CUR, except pursuant to the Agreement. The Agreement and the grant of the Mars Options thereunder are subject to the approval of the TSX Venture Exchange.

The Company has also granted stock options to certain officers, directors and consultants of the Company to purchase a total of 825,000 common shares pursuant to the Company’s long-term omnibus incentive plan. The options are exercisable at a price of \$2.23 per common share for a period of five years and are subject to the approval of the TSX Venture Exchange.

About International Consolidated Uranium

International Consolidated Uranium Inc. (TSXV: CUR) is well financed to execute its strategy of consolidating and advancing uranium projects around the globe. The Company has acquired a 100% interest or has entered into option agreements to acquire a 100% interest in seven uranium projects, in Australia, Canada, and Argentina, each with significant past expenditures and attractive characteristics for development. CUR has entered into option agreements with Mega Uranium Ltd. (TSX: MGA) to acquire a 100% interest in the Ben Lomond and Georgetown uranium projects in Australia; with IsoEnergy Ltd. (TSXV: ISO) to acquire a 100% interest in the Mountain Lake uranium project in Nunavut, Canada; with a private individual to acquire a 100% interest in the Moran Lake uranium and vanadium project in Labrador, Canada; and with U3O8 Corp. (TSXV: UWE.H) to acquire a 100% interest in the Laguna Salada uranium and vanadium project in Argentina. CUR has also acquired a 100% interest in the Dieter Lake uranium project and entered into an agreement to acquire a 100% interest in the Matoush uranium project, both in

Quebec, Canada. The option agreement with IsoEnergy for Mountain Lake and the option agreement with U3O8 Corp. for Laguna Salada both remain subject to regulatory approval.

Cautionary Statement Regarding “Forward-Looking” Information

This news release contains “forward-looking information” within the meaning of applicable Canadian securities legislation. “Forward-looking information” includes, but is not limited to, statements with respect to activities, events or developments that the Company expects or anticipates will or may occur in the future. Generally, but not always, forward-looking information and statements can be identified by the use of words such as “plans”, “expects”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates”, or “believes” or the negative connotation thereof or variations of such words and phrases or state that certain actions, events or results “may”, “could”, “would”, “might” or “will be taken”, “occur” or “be achieved” or the negative connotation thereof. Such forward-looking information and statements are based on numerous assumptions, including that general business and economic conditions will not change in a material adverse manner, that financing will be available if and when needed and on reasonable terms, and that third party contractors, equipment and supplies and governmental and other approvals required to conduct the Company’s planned exploration activities will be available on reasonable terms and in a timely manner. Although the assumptions made by the Company in providing forward-looking information or making forward-looking statements are considered reasonable by management at the time, there can be no assurance that such assumptions will prove to be accurate.

Forward-looking information and statements also involve known and unknown risks and uncertainties and other factors, which may cause actual events or results in future periods to differ materially from any projections of future events or results expressed or implied by such forward-looking information or statements, including, among others: negative operating cash flow and dependence on third party financing, uncertainty of additional financing, no known mineral reserves or resources, reliance on key management and other personnel, potential downturns in economic conditions, actual results of exploration activities being different than anticipated, changes in exploration programs based upon results, and risks generally associated with the mineral exploration industry, environmental risks, changes in laws and regulations, community relations and delays in obtaining governmental or other approvals.

Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information or implied by forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking information and statements will prove to be accurate, as actual results and future events could differ materially from those anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking statements or information. The Company undertakes no obligation to update or reissue forward-looking information as a result of new information or events except as required by applicable securities laws.
